

# QUALI-PRO

# Fipronil 0.1G

## Turf & Landscape Insecticide

A single, slit-applied application delivers sure-fire mole cricket control for six months and more. A broadcast application provides control of mole crickets for as long as four months and fire ants for up to one year.

### Features & Benefits

- Can be slit- or broadcast applied at extremely low use rates for highly effective control
- Low use formulation, 0.1% Fipronil, kills mole crickets and fire ants on contact and provides dependable, long-lasting residual
- Works by contact and ingestion in all weather conditions

### Formulation

Granular insecticide

### Effective Against

*Slit application controls:* Mole crickets

*Broadcast application controls:* Imported fire ants, Fleas, Ticks, Nuisance ants

### Packaging

50 lb bag (40 bags/pallet)

### Mode of Action

Contact or ingestion; blocks GABA-gated chloride channels in central nervous system

### Signal Word

Caution - **RESTRICTED USE PESTICIDE**
