SECTION 2. HAZARDS IDENTIFICATION

GHS Classification Acute toxicity (Oral)	:	Category 4
Carcinogenicity	:	Category 1B
GHS label elements Hazard pictograms	:	
Signal word	:	Danger
Hazard statements	:	H302 Harmful if swallowed. H350 May cause cancer.
Precautionary statements	:	Prevention: P201 Obtain special instructions before use. P202 Do not handle until all safety precautions have been read

Version	Revision Date:	SDS Number:	Date of last issue: -
1.0	03.11.2023	11283182-00001	Date of first issue: 03.11.2023

and understood.

P264 Wash skin thoroughly after handling. P270 Do not eat, drink or smoke when using this product. P280 Wear protective gloves/ protective clothing/ eye protection/ face protection.

Response:

P301 + P312 + P330 IF SWALLOWED: Call a POISON CENTER/ doctor if you feel unwell. Rinse mouth. P308 + P313 IF exposed or concerned: Get medical advice/ attention.

Storage:

P405 Store locked up.

Disposal:

P501 Dispose of contents/ container to an approved waste disposal plant.

Other hazards which do not result in classification

None known.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture

: Mixture

Chemical nature

: Suspension concentrate (=flowable concentrate)(SC)

Components

Chemical name	CAS-No.	Concentration (% w/w)
Imidacloprid	138261-41-3	>= 10 -< 30
Glycerine	56-81-5	>= 10 -< 30
Propylene glycol	57-55-6	< 10
(Benzyloxy)methanol	14548-60-8	>= 0.1 -< 1
Reaction mass of: 5-chloro-2-methyl-4-	55965-84-9	>= 0.0015 -< 0.06
isothiazolin-3-one [EC no. 247-500-7] and 2- methyl-2H-isothiazol-3-one [EC no. 220-239-6]		
(3:1)		

Alternative CAS Numbers for some regions

Chemical name	Alternative CAS Number(s)
Reaction mass of: 5-chloro-2-methyl-4- isothiazolin-3-one [EC no. 247-500-7] and 2- methyl-2H-isothiazol-3-one [EC no. 220-239-6] (3:1)	2682-20-4, 26172-55-4

SECTION 4. FIRST AID MEASURES

General advice

: In the case of accident or if you feel unwell, seek medical ad-

Version 1.0	Revision Date: 03.11.2023		DS Number: 283182-00001	Date of last issue: - Date of first issue: 03.11.2023		
			vice immediatel When symptom advice.	y. s persist or in all cases of doubt seek medical		
lf inl	haled	:	lf inhaled, remo Get medical att			
In c	In case of skin contact		In case of contact, immediately flush skin with soap and ple of water. Remove contaminated clothing and shoes. Get medical attention. Wash clothing before reuse. Thoroughly clean shoes before reuse.			
ln c	ase of eye contact	:		water as a precaution. ention if irritation develops and persists.		
lf sv	vallowed	:	: If swallowed, DO NOT induce vomiting. Get medical attention. Rinse mouth thoroughly with water. Never give anything by mouth to an unconscious person			
and	st important symptoms effects, both acute and ayed	:	: Dizziness Nausea Abdominal pain Trembling Lethargy Harmful if swallowed. May cause cancer. This product contains a nicotinoid.			
Prot	tection of first-aiders	:	: First Aid responders should pay attention to self-protection and use the recommended personal protective equipment when the potential for exposure exists (see section 8).			
Note	es to physician	:	 There is no specific antidote available. Treat symptomatically. Oxygen or artificial respiration if needed. Carefully monitor the respiratory functions. Monitor: blood (Hb, RBC, WBC). In case of ingestion gastric lavage should be considered in cases of significant ingestions only within the first 2 hours. However, the application of activated charcoal and sodium sulphate is always advisable. Contraindications: alcohol. 			

SECTION 5. FIREFIGHTING MEASURES

Suitable extinguishing media	:	Water spray
		Alcohol-resistant foam
		Carbon dioxide (CO2)

Vers 1.0	sion	Revision Date: 03.11.2023		0S Number: 283182-00001	Date of last issue: - Date of first issue: 03.11.2023

	Special for firefi	protective equipment ghters	:	In the event of fire Use personal prot	e, wear self-contained breathing apparatus. ective equipment.
	Hazche	em Code	:	•3Z	

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protec- tive equipment and emer- gency procedures	:	Use personal protective equipment. Follow safe handling advice (see section 7) and personal pro- tective equipment recommendations (see section 8).
Environmental precautions	:	Avoid release to the environment. Prevent further leakage or spillage if safe to do so. Prevent spreading over a wide area (e.g. by containment or oil barriers). Retain and dispose of contaminated wash water. Local authorities should be advised if significant spillages cannot be contained.
Methods and materials for containment and cleaning up	:	Soak up with inert absorbent material. For large spills, provide dyking or other appropriate contain- ment to keep material from spreading. If dyked material can be pumped, store recovered material in appropriate container. Clean up remaining materials from spill with suitable absor- bent. Local or national regulations may apply to releases and dis- posal of this material, as well as those materials and items employed in the cleanup of releases. You will need to deter- mine which regulations are applicable. Sections 13 and 15 of this SDS provide information regarding certain local or national requirements.

SECTION 7. HANDLING AND STORAGE

Technical measures	:	See Engineering measures under EXPOSURE CONTROLS/PERSONAL PROTECTION section.
Local/Total ventilation	:	If sufficient ventilation is unavailable, use with local exhaust ventilation.
Advice on safe handling	:	Do not get on skin or clothing. Do not breathe vapours or spray mist. Do not swallow. Avoid contact with eyes. Wash skin thoroughly after handling. Handle in accordance with good industrial hygiene and safety practice, based on the results of the workplace exposure as- sessment Keep container tightly closed. Do not eat, drink or smoke when using this product. Take care to prevent spills, waste and minimize release to the environment.
Hygiene measures	:	If exposure to chemical is likely during typical use, provide eye flushing systems and safety showers close to the working place. When using do not eat, drink or smoke. Wash contaminated clothing before re-use.
Conditions for safe storage	:	Keep in properly labelled containers. Store locked up. Keep tightly closed. Store in accordance with the particular national regulations.
Materials to avoid	:	Do not store with the following product types: Strong oxidizing agents

SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters

Components	CAS-No.	Value type (Form of exposure)	Control parame- ters / Permissible concentration	Basis
Glycerine	56-81-5	TWA (Mist)	10 mg/m3	AU OEL
Propylene glycol	57-55-6	TWA (partic- ulate)	10 mg/m3	AU OEL
		TWA (Total	150 ppm	AU OEL
		(vapour and particles))	474 mg/m3	

Version 1.0	Revision Date: 03.11.2023		DS Number: 283182-00001	Date of last issue: - Date of first issue: 03.11.2023		
Engineering measures :		:		ce exposure concentrations. tion is unavailable, use with local exhaust		
Per	sonal protective equip	ment	:			
Res	Respiratory protection :		sure assessment	If adequate local exhaust ventilation is not available or expo- sure assessment demonstrates exposures outside the rec- ommended guidelines, use respiratory protection.		
F	Filter type :		Combined particulates, inorganic gas/vapour and organic vapour type			
N E C	d protection Material Break through time Blove thickness Protective index	-	Nitrile rubber > 480 min > 0.4 mm Class 6			
F	Remarks :		Choose gloves to protect hands against chemicals depend on the concentration and quantity of the hazardous sub- stance and specific to place of work. For special application we recommend clarifying the resistance to chemicals of the aforementioned protective gloves with the glove manufacture. Wash hands before breaks and at the end of workday.			
Eye	protection	:	Wear the following Safety glasses	g personal protective equipment:		
Skin and body protection :		Select appropriate protective clothing based on chemical resistance data and an assessment of the local exposure potential. Skin contact must be avoided by using impervious protective clothing (gloves, aprons, boots, etc).				

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and shall not be considered a warranty or quality specification of any type. The information provided relates only to the specific material identified at the top of this SDS and may not be valid when the SDS material is used in combination with any other materials or in any process, unless specified in the text. Material users should review the information and recommendations in the specific context of their intended manner of handling, use, processing and storage, including an assessment of the appropriateness of the SDS material in the user's end product, if applicable.
