

KORO® BY IMANTS

RECYCLINGDRESSER® MKII

The RECYCLINGDRESSER® saves labour and material costs by redistributing the existing soil across the playing surface. This sustainable maintenance practice aerates the underlying soil vertically and horizontally, removing soil from the root zone and redistributing it. This process eliminates layering and compaction whilst increasing biological activity and getting extended use from existing fertilisers in the soil. The RECYCLINGDRESSER® is available in three working widths to suit various applications.

Specification

Model	1600 MK II	1900 MK II	2200 MK II
Working width	1.60m	1.90m	2.20m
Working depth	10 - 17cm		
No. of digging blades (8mm thick)	20	24	28
Spacing of digging blades & discs (interpitched)	300mm		
No. of coultter discs (4mm) thick	6	7	8
Weight (approx) inc extra weight	1,010kg	1,130kg	1,250kg
Power requirements with creep box*	50hp plus	60hp plus	80hp plus
Tractor requirements	540 PTO.		
Operating speed	0.5 – 0.75mph (0.5 – 1kph)		

Campey supply market leading, innovative turf care machinery worldwide, we're continually researching new techniques and refining existing practices to help turf care professionals achieve perfection.
